Microvi Biotech Selected as a Winner of Going Green 100 Top Private Company Award For 2008

Union City, CA (September 10, 2008) – MICROVI BIOTECH Inc. today announced that it has yet again been chosen by AlwaysOn as one of the GoingGreen 100 Top Private Companies for 2008. The second-annual elite GoingGreen 100 list was compiled by the AlwaysOn editorial panel. In order to be eligible for the GoingGreen 100 list, companies had to be peer-nominated, with AlwaysOn receiving more than 500 nominations from venture investors, investment bankers and other industry experts.

"The GoingGreen Top 100 winners have excelled in key strategic areas in the global clean energy technology markets," said Tony Perkins, founder and editor of AlwaysOn. "We congratulate them for their success in introducing new tools, services, and systems that are driving the next phase of greentech innovation and transforming the biggest industries on earth." The idea behind the GoingGreen 100 top private companies list is to identify the most promising entrepreneurial opportunities and investments in the clean technology industry. "Our ability to utilize natural processes to create unique waste-free solutions for water treatment allows us to provide cost-effective and green solutions to a wide range of customers in municipal and industrial applications" said Dr. Fatemeh Shirazi, President and CTO of Microvi Biotech Inc.

About AlwaysOn GoingGreen

AlwaysOn GoingGreen is a two-and-a-half-day executive gathering that highlights the significant impact clean technologies have on new economic growth and in sustainable use of natural resources. AlwaysOn GoingGreen features the most innovative companies, eminent technologists, influential investors and journalists in keynote presentations, panel debates and private company CEO showcases. The goal of the conference is to identify the most promising entrepreneurial opportunities and investments in the clean tech industry.
